

Management Information Report

Dear BSP Participant,

Please be informed that the information contained in this report may be used to guide your individual commercial decisions. The contents of the report should not be discussed with other Airlines or Agents other than the Agent whose sales have triggered the report.

The primary purpose of these reports is used for Agency Risk Management by IATA field offices working closely with the regional hubs to support local engagement on potential risk to industry funds. These reports allow IATA to identify Agents in each BSP with significant deviations in their sales amounts. These reports are to provide more visibility on the Agent's financial situation and allow Airlines and IATA to react faster with this additional information, therefore proactively safeguarding BSP Airlines' funds.

For enquiries please consult our Frequently Asked Questions (FAQ) section in Customer Portal. For further information, please contact our Customer Support team at www.iata.org/customer

Reporting Criteria

All amounts in this Report have been converted to USD using the IATA 5 day exchange rate.

Agents appearing in this report:

Agents with an average monthly sales for the last 12 months of 500,000.00 USD and above that have 100 % or more sales variation (i.e. average daily sales for the reporting period have more than doubled as compared to the average daily sales for the past year).

Note: The sales of Head Offices and of Branch locations within the same country have been consolidated under the Head Office code.

Note: For the initial launch, when there is one or more Branches located in other countries that have sales as part of the Agent group, the Agent group will be excluded from the Report. IATA will advise immediately when these Agents become available.

Report Period

The report period starts on the first day of sales to be remitted (first day after the previous remittance date) and finishes two days before the Report is generated.

Countries not included in the Management Information Report

Israel is not included in the Management Information Reports due to the legal restrictions imposed by government regulators.

The following countries: Brazil, China, Germany, Kosovo, Netherlands, Russia, Serbia, South Korea and Venezuela are not included in the current report. IATA will advise as soon as reports for the BSPs in these countries become available.

Financial Securities

Please be advised that group Financial Securities (defined as covering a number of Agents and having a maximum amount which can be claimed per default and per market per year) include the following financial security types: Default Insurance Programme, TAANZ, CWA Mutual Fund and Industry Trust Fund (Hong Kong). Please note that the coverage of group Financial Securities does not equal the aggregated amount at risk of the Agents under the Financial Security.

Financial securities with an unlimited coverage have not been disclosed and will not show a percentage utilization of Financial Security. In the Report, the percentage of Financial Security and the Financial Security amount will appear as an asterisk.

Management Information Report

Definitions

- ~ Head Office: Agent IATA code
- ~ Legal Name: Agent Legal Name
- ~ Type: Agent Location Type (HO-Head Office, AO-Administrative Office)
- ~ Frq: Remittance Frequency (W-Weekly, T-Twice a Week, S-Super Weekly, F-Fortnightly, D-Every 10 days, M-Monthly)
- ~ Sales to be remitted: Total Reported Sales (NET) in the report period that are not yet due for remittance.
- ~ %Financial Security Utilized: It is the percentage of Financial Security used compared to sales to be remitted.
- ~ Daily Cash Avg.: The ratio between Daily Net Cash Sales (cumulated) until the date of this report AND the number of days in the reported period.
- ~ Avg. Daily Sales Variation: The Daily Cash Average in the current period as compared to the Average Daily Cash sales in the last 12 months.
